No. : 897 /SET/KPA/XII/2014

Subject : Reference for Bali Peduli Foundation's (YBP)

To Whom It May Concern,

I'm writing in support of the Bali Peduli Foundation's (YBP) innovative work in Bali in providing access to HIV testing and care for high-risk populations and pregnant women in Bali. YBP's provision of affordable, accessible, efficient, high-quality services for HIV and sexually transmitted infections in private and public settings is a model that the government of Indonesia would like to replicate in other areas and will look to YBP for guidance and assistance.

We wholeheartedly support YBP's request for funding to further expand it's work and provision of services.

Sincerely,

Dr. Kemal N. Siregar

Secretary, National AIDS Commission
