

Bali Peduli

ANNUAL REPORT 2023

Get Tested - Get Treated - Get on with Your Life!
Kenali - Obati - Lanjutkan Hidup Anda!

WHO ARE WE?

Bali Peduli Foundation (YBP) is a non-profit organization dedicated to sexual health in Bali. Established in 2011 in response to the growing concerns about the spread of HIV AIDS among the residents of Bali, YBP was founded under the guidance of Dr. Steve Wignall, a renowned HIV physician and clinical researcher. In 2013, Bali Peduli achieved its official registration as a non-government organization in Indonesia.

Our vision is to eliminate barriers in the HIV care cascade in Bali and eradicate HIV stigma. In alignment with our mission, we provide free or cost-effective, confidential testing and timely treatment for HIV and STIs to Indonesian nationals. We engage in outreach efforts to disseminate information to the public to diminish the stigma associated with HIV. Our efforts extend to advocating, facilitating, and engaging in the prevention of HIV and STIs while promoting sexual health and well-being. We advocate and facilitate early HIV testing among high-risk populations and expectant mothers, offer counseling services, and provide support to individuals living with HIV AIDS. Additionally we are -

actively involved in implementation research that supports our vision and mission, aiming to improve community health outcomes and reduce the impact of HIV on individuals and communities.

We operate two clinics offering one-stop services for HIV/STI testing, treatment, and counseling, with more than 800 visits per month and supporting over 600 clients receiving Antiretroviral Therapy (ART).

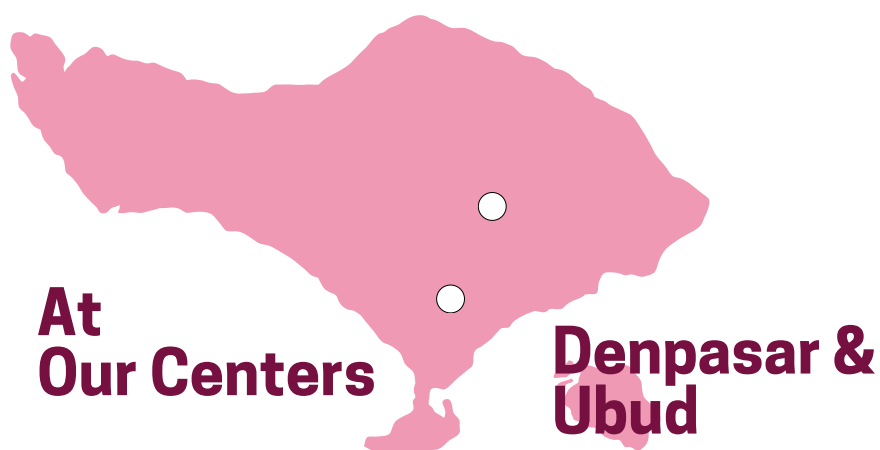

In 2023, Bali Peduli served as a research hub for key initiatives like the Indonesia Intervention Study to Test & Treat People with Acute HIV Infection (INTERACT). This effort brought together prominent institutions such as the Oxford University Clinical Research Unit Indonesia (OUCRU), Atma Jaya University, Chelsea & Westminster NHS Trust UK, Yayasan Kasih Globalindo, the Center for Public Health Innovation (CPHI) at Udayana University, the Faculty of Medicine at Universitas Indonesia, Amsterdam UMC, the University of Glasgow, and the Big Data Institute at the University of Oxford.

ACTIVITY IN 2023

Our Operations and Project Manager, Ns. Gusti Ngurah Agus Arimbawa, S.Kep., and Betti Ratricia, S.KM., attended a meeting at the Bali Provincial Health Office organized by Yayasan Bali Bersih

The Bali Peduli team (Dr. Hendry Luis & Betti Ratricia, S.KM.) collaborated with the Bali Spa Wellness Association (BSWA) and Job Street Express to discuss managing stigma, stress and burnout at workplace

Executive Director of Bali Peduli, Dr. Hendry Luis, chaired the HIV/AIDS session at the 4th Andalas International Nursing Conference.

The discussion focused on the latest advancements and challenges in HIV prevention and treatment, highlighting the role of nurses in all stages of HIV care.

ACTIVITY IN 2023

Dr. Hendry Luis chaired the webinar on the prevention of transmission and treatment of monkey pox in people with HIV which organized by the Ministry of Health of Indonesia.

In 2023, Bali Peduli collaborated with OUCRU Indonesia (Oxford University Clinical Research Unit) on a study to test and treat acute HIV infections. Our team received training in good clinical practice, documentation, and acute HIV detection algorithms. This allows early detection and treatment to prevent HIV transmission.

ACTIVITY IN 2023

We attended a Hepatitis C monitoring meeting for Kerobokan correctional facilities. Bali Peduli serves viral load testing referrals for diagnosis and post-treatment evaluation, showing our commitment to preventing Hepatitis C in Bali.

Monitoring and evaluation meetings for the Hepatitis C Program involved all health facilities in Bali. Ns. Gusti Ngurah Agus Arimbawa, S.Kep., from Bali Peduli, presented progress and achievements in Hepatitis C rapid diagnostic tests and viral load as of 2022.

Dr. Hendry Luis attended the Community-Based PrEP Service Development Workshop, which focused on best practices for providing Pre-Exposure Prophylaxis (PrEP) in public health centers and community settings. Stakeholders and practitioners provided feedback on the potential, benefits, and challenges of PrEP implementation.

ACTIVITY IN 2023

Dr. Hendry Luis attended a study dissemination meeting by UNAIDS and the Center for Public Health Innovation, Udayana University.

The meeting highlighted key findings from various HIV and key population studies. This meeting aimed to strengthen stakeholder collaboration while discussing best practices in HIV prevention and treatment.

Dr. Hendry Luis, Ns. Gusti Ngurah Agus Arimbawa, S.Kep., Betti Ratricia, S.KM., and Gede Ananta, S.KM. attended NVivo qualitative data analysis training to enhance their research skills for supporting sexual health interventions and HIV studies.

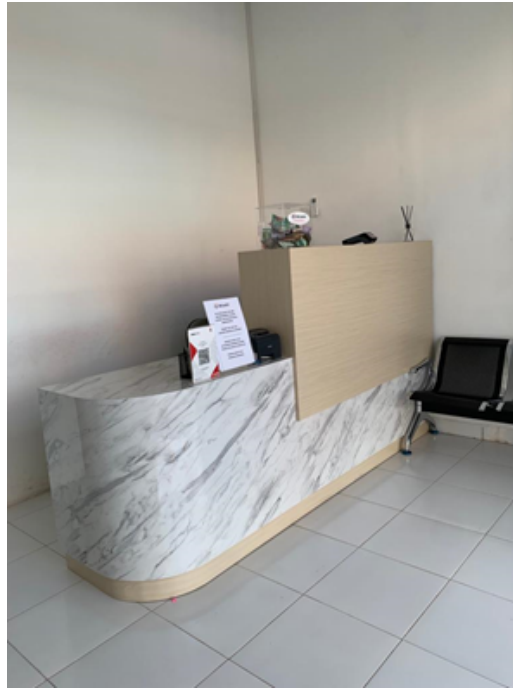

Our Research, Operations & Communication Officer, Gede Ananta Bayu Temaje, S.KM., participated in SOGIESC Training organized by the Youth Interfaith Forum on Sexuality (YIFoS) Indonesia.

The training aimed to enhance health workers' capacity to provide inclusive and non-discriminatory services to clients from diverse backgrounds.

ACTIVITY IN 2023

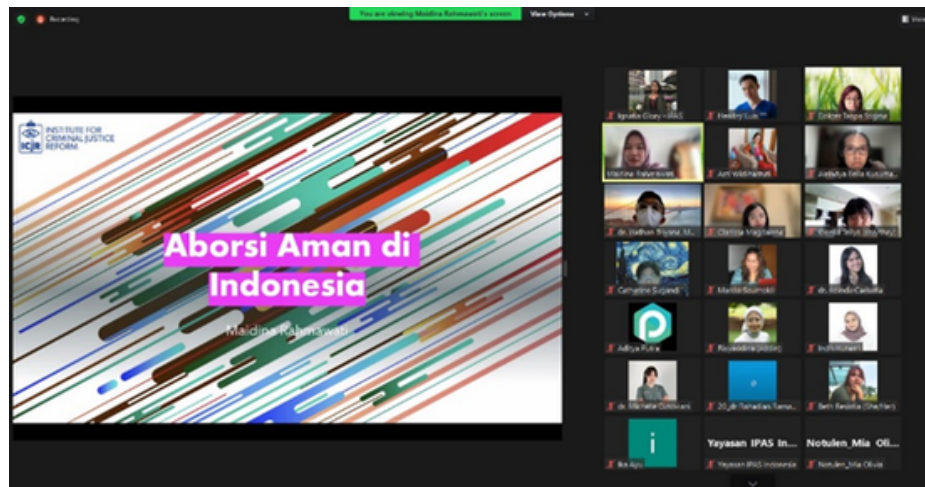

In mid-2023, Bali Peduli relocated to a new strategic center on Imam Bonjol, near Sunset Road, Kuta. This location allows us to serve a larger segment of the population, particularly high-risk communities for HIV and STIs. The new center features upgraded STI screening tools, speeding up diagnosis and improving treatment success. Despite some limitations in furniture and room setup, we continue to deliver quality and comprehensive services.

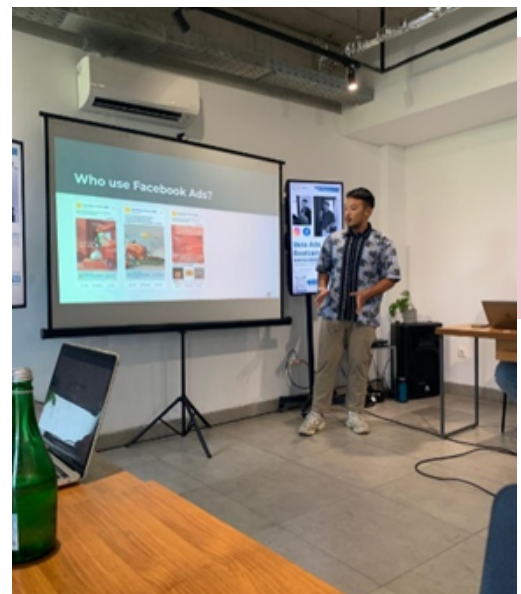

We collaborated with Bali International Polytechnic to discuss sexual health during new student orientation. Young participants eagerly asked questions and shared concerns about myths and misinformation related to sexual and reproductive health spread on social media.

ACTIVITY IN 2023

We attended a webinar on creating an environment that supports safe abortion services, organized by the Access to Health Change Initiative Foundation. The webinar highlighted global and national abortion situations and the implementation of safe abortion services in compliance with regulations.

Betti Patricia, S.KM., and Gede Ananta, S.KM., attended digital marketing training on Google Ads. The training covered creating online campaigns, writing engaging captions, and selecting effective photos which will help in reaching key affected populations with sexual health campaigns.

ACTIVITY IN 2023

We provided access to information and STI screening through our collaboration with The Ambengan Tenten at the Wellness Day event. During an interactive talk show, we discussed maintaining reproductive health. Attendees eagerly asked questions and voiced concerns about sexual health, and some took advantage of the STI screening available at our stand.

Ns. Gusti Ngurah Agus Arimbawa, S.Kep., participated in a discussion on strengthening partnership forums for AIDS, Tuberculosis, and Malaria prevention programs in Gianyar Regency, supported by the Indonesian Health Office Association. We reaffirm our commitment to continuing efforts to prevent HIV transmission among communities.

ACTIVITY IN 2023

As a committee member of the National HIV Research Network Meeting on World AIDS Day 2023, held in Badung, Bali, we gathered representatives from stakeholders, hospitals, public health centers, universities, practitioners, researchers, and HIV-related NGOs. The meeting covered recent achievements of the national HIV program and explored the latest findings, challenges, and opportunities across all HIV care cascades in Indonesia, from outreach and prevention to testing, care and treatment

We appreciated the team's dedication in providing top-notch sexual health services throughout 2023 with a team lunch. This event also strengthened team bonds and helped develop strategies for achieving our goals in the coming year.
